

VITAMIN C & CHEWABLE ALL-C

Vitamin C is the body's main water soluble antioxidant for the maintenance of good health and contributes to the protection of cells from oxidative stress. Besides its own powerful antioxidant role, it is an integral part of the body's antioxidant defence team and contributes to the regeneration of the reduced form of vitamin E, the body's main fat soluble vitamin. As vitamin C is water soluble it can't be stored in the body for long – it must be replenished every day. As important as this “protector” nutrient is, a large percentage of us don't consume the Recommended Dietary Allowance each day. NeoLife provides two excellent choices to address this gap: Vitamin C Sustained Release over six hours or more and delicious All-C for a chewable option. Our products feature high potency, high-purity vitamin C plus vitamin C related factors from whole citrus fruits. All NeoLife vitamin C products include our exclusive Neo-Plex Concentrate – virtually everything from whole oranges but the water – for better absorption and utilisation.

#2551 – 100 tablets

#2512 – 90 tablets

NeoLife Scientific
Advisory Board

Why Vitamin C?

As an essential nutrient it is a factor in the maintenance of good health and contributes to normal energy yielding metabolism, helping to metabolise fats and proteins. It also helps in connective tissue formation.

As a potent water soluble antioxidant, vitamin C contributes to cell protection from free-radical damage.

Why NeoLife's Chewable All-C and Vitamin C (Sustained Release)?

- **High potency , high-purity vitamin C and vitamin C related factors from oranges, lemons and grapefruit enhance bioavailability.** Chewable All-C also contains rose hips and acerola cherries – nature's richest sources.
- **NeoLife's Neo-Plex Concentrate provides virtually everything from whole oranges except the water:** juice factors (vitamin C, bioflavonoids etc) and rind and pulp factors (including flavedo, mesocarp, endocarp and protopectins).

- Other whole-food bioflavonoids assure broad spectrum protection – rutin from buckwheat, hesperidin from grapefruit and bioflavonoid complex from lemon.
- **Two potencies, two forms.** Available as chewable tablets and our Sustained Release tablets.

As an essential nutrient and antioxidant for the maintenance of good health, vitamin C contributes to:

- Cell protection from free radical damage and oxidative stress
- Normal collagen formation for the normal function of blood vessels, bones, cartilage, skin, gums and teeth.
- Normal function of the immune and nervous systems, as well as psychological function
- Maintenance of normal function of the immune system during and after intense physical stress
- Reduction of tiredness and fatigue
- Iron absorption from food
- Wound repair
